

Normal State Plan Schemes- Surface Water

Surface Water Minor Irrigation Schemes where the entire expenditure is being met from the State Plan Budget are being implemented to provide irrigation facilities to the farmers so that double/ multiple cropping can be practiced for increasing the crop yield, as against single/ mono cropping under rain fed conditions.

During the current financial year 2004-2005, there are 17 nos. of ongoing schemes under the Capital Outlay head of account targeting to cover a command area of 1207.33 Ha and to benefit 594 families. 7 nos. of schemes are targeted to be completed during 2004-2005 and to cover a potential of 342.03 Ha, the details of which are shown below:

HEAD OF ACCOUNT : 4702 - C.O on M.I. (Flow) Normal State Plan
